Election/Restrictions

1. Claims 1-4 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention.

Claim Rejections - 35 USC § 102 and 103

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

3. Claim 6 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ishikawa et al (6,132,856), for reasons of record.
4. Claim 5 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Japanese document 09-052776, for reasons of record.

Applicants argue that the prior art references fail to teach the limitation “wherein the component has a curved surface and/or an inclined surface and the fibers are aligned in a surface shape of the curved surface and/or the inclined surface”. It is argued that the prior art the component is obtained by machining an obtained board material, leaving interlayers exposed.

This is not persuasive in overcoming the rejection. Ishikawa et al do not teach the machining of the component but the forming of the component which is hot pressed into the desired shape, see column 7, lines 13-22, 52-55. One of ordinary skill in the art would not equate shaping with machining such as cutting. It is maintained that the shaping step of Ishikawa et al would form the claimed structure.

Art Unit: 1755

The Japanese document uses a hot press step not machining as argued and would form the claimed structure.

Conclusion

5. This application contains claims 1-4 drawn to an invention nonelected with traverse. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
